As a record label exec, I do a ton of traveling regarding the acts on our label. The XM Instant Traffic & Weather reports keep me up to date on issues I need to be concerned with while traveling. And since I have three radios, my family depends on these reports in their hometown.

I also find that XM Radio is perfect for when I am driving across country. No longer do I have to worry if I can get a radio station in clearly...or miss the type of music I love. Now I can listen to the same station from my office in Los Angeles to New York, and all points in between.

Thanks for listening.
Jerry Holden, Pres./CEO
